EDUCATION

Graphic Era Hill University, Bhimtal

B.Tech in Computer Science and Engineering — CGPA: 7.37

Aug 2023 – June 2027 (Expected)

Nainital, Uttarakhand

Naini Valley School, Kathgodam

Intermediate & High School — 71.0% & 85.17%

Apr 2020 – Mar 2022

Haldwani, Uttarakhand

PROJECTS

Enterprise Financial Decision Intelligence Copilot | Python, Scikit-learn, SHAP, Streamlit, Plotly

June 2026

- Engineered an enterprise-grade financial risk intelligence platform leveraging Machine Learning, Explainable AI (SHAP), and anomaly detection to identify fraudulent and high-risk transactions from 6M+ financial records.
- Designed a multi-layer risk assessment engine combining Random Forest classification, Isolation Forest anomaly detection, and AI-powered decision intelligence for transparent fraud investigation.
- Developed an interactive Business Intelligence dashboard with executive risk analytics, fraud monitoring, transaction explainability, and AI-generated insights for data-driven financial decision making.

Face Recognition Voting System | Computer Vision, Deep Learning, OpenCV, Facial Recognition, SQLite

May 2025

- Developed a biometric e-voting system leveraging Computer Vision and facial recognition techniques to enable secure, contactless voter authentication.
- Implemented real-time identity verification, duplicate vote prevention, and automated voter validation using OpenCV-based recognition pipelines.
- Designed a scalable digital voting architecture focused on security, accuracy, and fraud-resistant election management.

AI Voice Assistant | Python, NLP, Speech Recognition, API Integration

Aug 2025

- Developed an AI-powered virtual assistant leveraging Natural Language Processing (NLP) and speech recognition to enable intelligent voice-based human-computer interaction.
- Engineered voice-driven automation workflows for information retrieval, web navigation, media control, and productivity enhancement through API integrations.
- Implemented a multi-threaded architecture for real-time command execution, conversational response generation, and seamless task automation.

INTERNSHIPS AND WORK EXPERIENCE

CodSoft IT Services & Consultancy

Python Developer Intern

Aug 2025 – Sep 2025

Remote

- Developed Python applications including Password Generator, Contact Manager, and Calculator.
- Applied modular programming and clean coding practices.
- Strengthened fundamentals of software development and problem solving.

TECHNICAL SKILLS

- **Languages:** Java, C, C++, Python, SQL
- **Web Development:** HTML, CSS, JavaScript
- **Databases:** MongoDB, MySQL
- **Data Analytics:** Power BI, Advanced Excel, Tableau, Matplotlib
- **ML & AI:** TensorFlow, Scikit-learn, OpenCV
- **Tools & Platforms:** Git, GitHub, VS Code, PyCharm, Jupyter, Anaconda

CERTIFICATIONS AND ACHIEVEMENTS

- Fundamentals of Artificial Intelligence – NPTEL (2025)
- AWS Cloud Practitioner Essentials – Amazon Web Services (2025)
- Oracle Certified Foundations Associate – Oracle (2025)
- Building AI-Powered Search with MongoDB Vector Search – MongoDB Skill (2026)
- Recieved internship offer letter (Software Engineer) – Springer Capital (2025)
- Python for Beginners – Scaler Topics (2024)
- Machine Learning using Python – Simplilearn (2025)
